

*Adm. 12.1*  
*Comesp*

13 November 1968

Dear Luis,

I am sure I speak for a number of the people in the office when I say that we were more than happy to learn that you were the recipient of a Nobel prize. I am particularly pleased to see an individual with your experimental talents and ingenuity awarded this honor.

I hope to see you when some of the furor has subsided and congratulate you in person.

With fondest regards,

Sincerely,

*RM*
